Audio Script
Production Template 2024/25

PRODUCTION TITLE: MyBlog Welcome Audio

LOCATION: My accommodation or creative suite

DURATION: 100-120 seconds (around 2 minutes)

INTRO:
"Hey everyone, It's Fran here! Welcome back! In the last episode, I gave you a sneak peek into one of my passions: music. I briefly talked to you guys about one of my favorite artists. We will build on the topic of music but in a different way.

MAIN POINTS: podcast-type audio, talking about music taste and genres
Let's dive right in! From what I remember, you guys learned that Billie Eilish is one of my favorite artists. She is a fantastic musician; I've listened to her for years. Her new album 'Hit Me Hard and Soft' came out last year.

That album was a masterpiece, and I resonated so much with it. The differences in one album's styles, harmonies, lyrics, and feelings make it incredible and versatile.

Enough of me. I'm here with my friend Camilia. She says hi. I wanted to ask you who your favorite artist is and give me some backstory on why. Tell me what makes them your number one.

Camila answers: talks about Bad Bunny's new album 'Debi Tirar mas Fotos,' and his impact on her.

Well, thank you so much, Camila. Although our music tastes are very different, they are still good ones. Thanks for joining me!

OUTRO:

"Well, Thanks for stopping by! I hope you learned a little about my friend Camilia and my musical tastes. Maybe we have influenced you guys to listen to different music genres. See you next time.

Audio Postproduction Edits Sheet

ual: london college of communication

Project Name: Postproduction Audio Test

Files:

Intro, Main, and Outro take	{audio #1}
Background Music	{Music}

Source: Main Recording Take 1.mp3

Main Edits:

0:00 - combine main audio recording and background music

Further edits:
→ Adjust the audio so that the background music does not overlap, take over the main audio, and add a fade-out at the end of the main audio when signing off.
